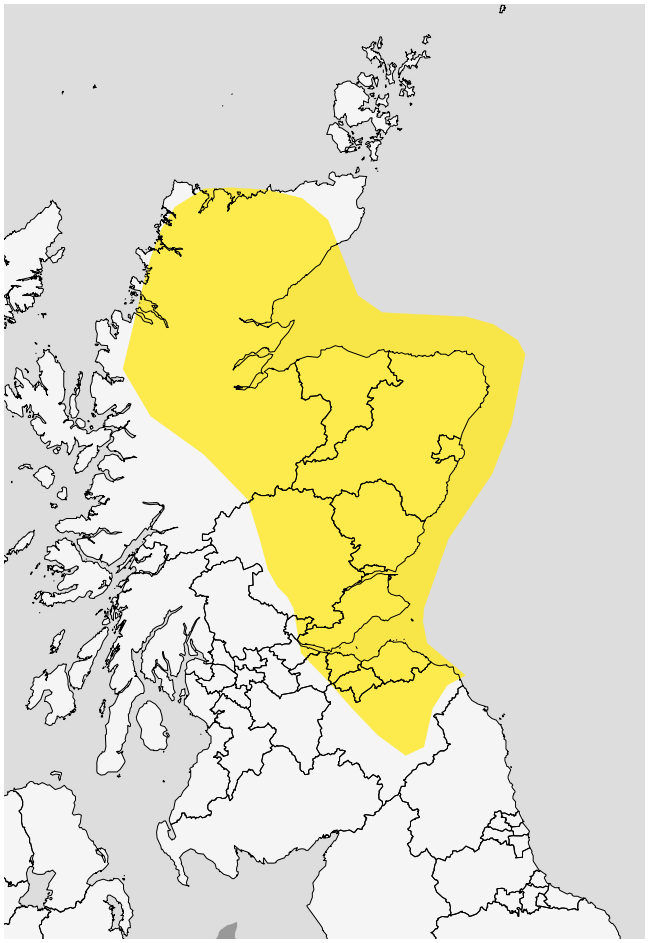
Yellow warning
Thunderstorm

Between
11:00 Mon 27 May 2024 and
22:00 Mon 27 May 2024



Slow-moving heavy showers and thunderstorms may cause flooding and disruption in places.

What to expect

- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- There is a small chance of fast flowing or deep floodwater causing danger to life
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

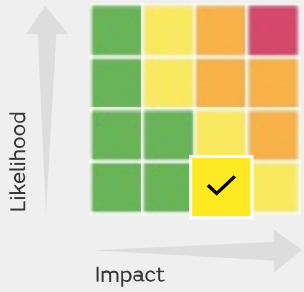
Further details

Slow-moving showers and thunderstorms are expected to develop during Monday. Rainfall accumulations will vary significantly across the warning area but 10-20 mm in an hour is likely in places with a chance of up to 30-40 mm in a few hours. Lightning may also cause impacts.

What should I do?

Consider if your location is at risk of flash flooding. If so, consider preparing a flood plan and an emergency flood kit.

Prepare to protect your property and people from injury.



Very low likelihood of medium impacts

Yellow warning
Thunderstorm

Between
11:00 Mon 27 May 2024 and
22:00 Mon 27 May 2024

Further Details (continued)

Before gusty winds arrive, check to ensure moveable objects or temporary structures are well secured. Items include; bins, garden furniture, trampolines, tents, gazebos, sheds, and fences.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you find yourself outside and hear thunder, protect yourself by finding a safe enclosed shelter (such as a car). Do not shelter under or near trees, or other structures which may be struck by lightning. If you are on an elevated area move to lower ground.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
